## APPLICATION TIPS

1. Even out skin tone and hide imperfections with a light application of **Skin Tint Cream-to-Powder**.
2. Using the **Flat Eyeshadow Brush**, stipple **I Believe in Pink** pigment powder starting from the inner corner of the eye half way across the eyelid. Really press the powder into the skin for complete saturation. Layer for intensity.
3. On the outer half of the eyelid, blend **Burnt Copper Bronzed** with the **Eye Blender Brush** into **I Believe in Pink** creating a soft muted glow.
4. Line eyes with **Twig Eye Definer** on top and bottom. Blend into lash line using the **Detail Brush** and set with **Burnt Copper**.
5. Apply **Shimmer Rose Brilliant** under the brow and the inner corner of the eye.
6. For the cheeks, apply a very small amount of **I Believe in Pink** with the fingertip high up on the cheek bone, not on the apples of the cheek. This will give a more mature look. Blend using **Blush Contour Brush** with **Shimmer Rose Brilliant** working back toward the temple.
7. Coat lashes in Black using **Lash Essential** mascara. For a night out, consider tipping the lashes with the bold neon green or blue mascara to add contrast.
8. On the lips, finish the look by applying **I Believe in Pink** with the fingertip. Use several layers for intensity. Finally, use **Flicker Colour Luxe** over the top to add shine.
